

Quality Policy

We strive to build mutually beneficial relationships with customers and suppliers who share our commitment to accurate and reliable parts. Our employees work as a team to know who our customers are and how we can meet each customer's application requirements. Management utilizes quantitative and qualitative analysis to make certain that we meet our:

- Customers' quality expectations
- Legal and regulatory requirements
- Compliance to applicable standards

Through team participation, regular training and management review we ensure that continuous improvement is part of every day and every job.

Quality Objectives

Our Company's quality objectives are established and based on the principles of "Right First Time" and "On Time".

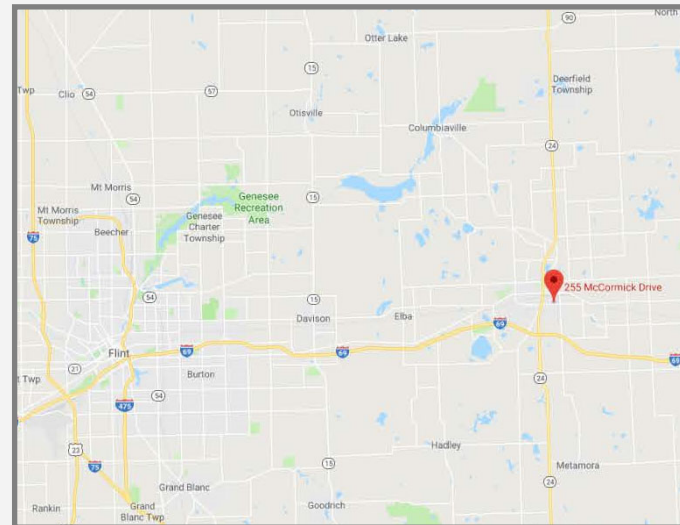

Each year, targets are established and communicated through the organization.

Management has determined that AS9120 Rev B, Section 8.3 "Design and Development of Products and Services" is nonapplicable as AVD does not undertake these activities.

Avicore Defense Inc. is an AS9120 and ISO 9001:2015 certified company. Our current quality certificate can be downloaded on our website:

AVICORE DEFENSE

QUALITY MANAGEMENT SYSTEM MANUAL

Our Mission

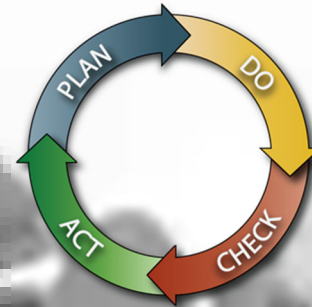

Avicore Defense Inc. is a Lapeer, Michigan-based distributor of military, aerospace and commercial fasteners that serves customers in North America and Canada. The company was established over 25 years ago and is jointly owned and operated by Anita Conant and Carri Koehler. Customers depend on AVD's extensive product knowledge and experience during all phases of their projects. The company is a Woman-Owned Small Business offering full traceability, a large variety of finishes and the ability to provide customized parts. We have a Certified Fastener Specialist on staff that has completed their training through the Fastener Training Institute.

Avicore's Quality Management System (QMS) is intended to comply fully with AS9120D. This quality manual represents the scope of Avicore's QMS, references its procedures, identifies the relationships between the procedures and processes established, and defines the interaction between these processes. The relationship between AS9120D and Avicore's QMS is defined by this manual.

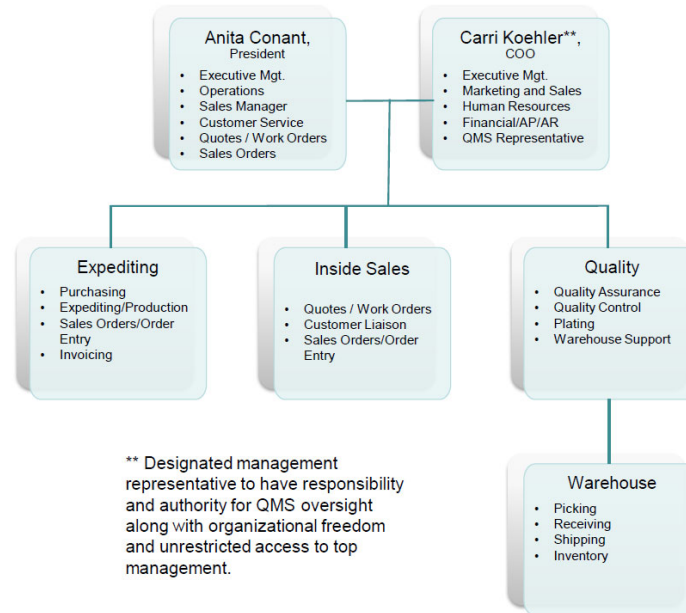

Avicore is committed to live by the spirit of all applicable clauses of AS9120D, including the requirement to continually improve the effectiveness of its QMS. This commitment is supported by Avicore quality policy statement, our objectives and goals which are all reviewed annually by Management.

Scope
